Applications are invited for the following full-time position in the Saw Swee Hock School of Public Health:

**RESEARCH ASSISTANT/ RESEARCH ASSOCIATE/ POST-DOCTORAL FELLOW (EPIDEMIOLOGIST) POSITION IN THE CENTRE FOR INFECTIOUS DISEASE EPIDEMIOLOGY AND RESEARCH (CIDER)**

The Centre for Infectious Disease Epidemiology and Research (CIDER) in the Saw Swee Hock School of Public Health is looking for a **full time Research Assistant/ Research Associate/ Post-doctoral Fellow**.

The main role of this position is to support biosurveillance, epidemiological research, and teaching of epidemiological concepts.

The candidate is required to perform systematic review/meta-review, data collection, statistical analysis, computational tasks as well as coordination and management of projects.

**Qualifications:**

BSc (Hons), Masters or PhD in Epidemiology/Public Health/Veterinary Science. Preferably with at least 2 years of working experience in public health/field epidemiology/infectious disease research. Knowledge of modelling work will be a plus. Publications in peer-reviewed journals will be highly preferred. For Research Associate position, applicants are expected to possess at least a Master's degree. For the Post-doctoral Fellow position, applicants are expected to possess at least a PhD.

This position will be initially available for one year. The grade of appointment will be accorded based on candidate’s academic qualifications and years of relevant experience.

**Job Description:**

Specific tasks and responsibilities include the following:

1. Manage specific project deliverables/tasks assigned for biosurveillance and prepare weekly/monthly biosurveillance report
2. Perform systematic review/meta-review and generate professional analytical report.
3. Conduct data analysis using STATA/SPSS/R and generate professional manuscript.
5. Propose and design new relevant studies and provide support to grant writing
6. Manage ad-hoc request for biosurveillance information

**Job specifications**

- High level of enthusiasm for learning
- Strong passion in infectious diseases, field epidemiology and public health
- Proactive, ability to work independently and have good organizational and communication skills
- Able to work as a team
Interested applicants should send the following documents by email to Ms Chua Hui Lan at epchil@nus.edu.sg:

a. Cover letter highlighting career goals and relevant experience
