

Research Fellow/Associate in Quantitative Methods

The Saw Swee Hock School of Public Health (SSHSPH) at the National University of Singapore (NUS) is recruiting a full-time Research Fellow or Research Associate with equivalent experience to support faculty members in the area of quantitative methods/biostatistics.

Specific duties will include: managing, extracting, analyzing and documenting data from databases and raw datasets; report writing, presentations and publication of results and findings in peer-reviewed journals.

The appointed candidate is expected to have at least a Master from an established University, preferably in mathematics, statistics or equivalent.

For a Research Fellow position, the candidate should hold a PhD.

The ideal candidate should demonstrate: (1) competency in Microsoft Office Applications (2) familiarity with data collection and/or statistical software (e.g: SPSS, Stata, SAS or R) (3) strong data analytical skills (4) ability to work independently and be a team player (5) good communication skills.

The position is a 1-year contract in the first instance and could be extended with good performance.

Applicants should send the following by email to Ms. Felicia Yue (ephyqjf@nus.edu.sg):

- 1) Cover note introducing themselves
- 2) Brief statement of interest matching their skills and competencies to the requirements of the post (no more than 1000 words)
- 3) A two page Curriculum Vitae, containing details of three named referees
- 4) A sample of published work (if any) that is the most relevant to the current vacancy
- 5) A complete NUS Personal Data Consent for Job Applicants (form is available here: [NUS Personal Data Consent for Job Applicants](#))

Informal enquiries can be addressed to A/Prof Gerald Koh (ephkohch@nus.edu.sg).

Interviews will be either face to face for local candidates or by video link for those who are based abroad.
