

SHORT COURSE ON

NUTRITIONAL EPIDEMIOLOGY

3 to 9 May 2016 (excluding 7 and 8 May 2016)

COURSE OBJECTIVES

Dietary exposures have an important impact on health, but are highly complex and difficult to assess.

This course covers methods for the assessment of diet, nutritional status including novel developments such as the use of genomics. It also covers the design, conduct, analysis, and interpretation of epidemiological studies on diet and health.

Participants will be trained in the interpretation of published studies, the design of studies, and the analysis of data on diet and health.

WHO SHOULD ATTEND

This course is targeted at persons with an interest in the design, conduct, or interpretation of nutritional epidemiology research.

Please note that the course is methodological in nature and does not focus on providing an overview of various nutritional determinants of health.

Participants should have basic understanding of epidemiology and biostatistics.

COURSE FEES

SGD1,337.50 (including prevailing GST)

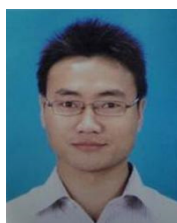

Course fees include lecture materials.

Closing date for registration: **28 MARCH 2016**

Applications are on "first-come-first-served" basis.

Successful applicants will be informed by **4 APRIL 2016** and course fees must be received by **11 APRIL 2016** to secure a place.

TEACHING FACULTY

HUANG Tao

*Assistant Professor
Saw Swee Hock School of Public Health, National
University of Singapore*

Falk MUELLER-Riemenschneider

*Assistant Professor
Saw Swee Hock School of Public Health, National
University of Singapore*

Salome REBELLO

*Lecturer
Saw Swee Hock School of Public Health, National
University of Singapore*

Rob Martinus VAN DAM

*Associate Professor
Saw Swee Hock School of Public Health, National
University of Singapore
Adjunct Associate Professor
Nutrition and Epidemiology, Harvard School
of Public Health*

COURSE CONTENTS

- ✓ Overview of nutritional epidemiology
- ✓ Foods, nutrients & dietary databases
- ✓ Dietary variability
- ✓ Dietary assessment methods: FFQs, Records, Recalls
- ✓ Biochemical indicators of dietary intake
- ✓ Validation of dietary assessment methods
- ✓ Adjustment for total energy intake
- ✓ Data analysis in nutritional epidemiology: focus on regression analysis
- ✓ Genomics in nutritional epidemiology
- ✓ Dietary pattern analyses
- ✓ Physical activity assessments

CANCELLATION

Any cancellation must be conveyed to the course administrator in writing via email.

A cancellation charge of 50% of fee will be levied if the cancellation is received before **25 APRIL 2016**.

NO REFUNDS WILL BE GIVEN FROM 25 APRIL 2016 ONWARDS but replacement with another name is permissible.

ACCOMMODATION

The course is non-residential. Participants who require accommodation may contact the Course Administrator for information.
